### PROFESSIONAL EXPERIENCE

Aug 2024 - Current

Bengaluru, India (Remote)

#### Frontend Developer Intern / CybraneX

- **Developed and tested** production-based websites, ensuring high performance and responsiveness.
- Worked on the **deployment process**, optimizing CI/CD pipelines for smooth production releases.
- Implemented **frontend enhancements** using modern JavaScript frameworks (React, Next.js, or similar).
- Collaborated with backend teams to ensure **API integration and data flow** functioned efficiently.
- Used **version control (Git, GitHub/GitLab)** to manage code and streamline team collaboration.

### PROFESSIONAL SUMMARY

Soon-to-be graduate with a B.S in Computer Science & Data Analytics and hands-on experience in performance testing, website optimization, and deployment. Strong skills in load testing, stress testing, JMeter, LoadRunner, API performance analysis, and CI/CD pipelines. Seeking to leverage my technical expertise and analytical skills to fill the Performance Tester role and help achieve your goals of delivering high-performing, scalable, and reliable applications.

### SKILLS

CI/CD pipelines

Git/GitHub

JMeter

Gatling

JavaScript
